

# Let's Go Shopping!

**Directions:** In Michigan, the sales tax is 6%. That means for every dollar you spend, you will pay \$.06 extra for your purchase. Calculate the amount you will pay at check out when you buy the following items:

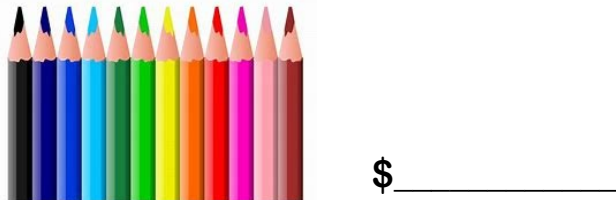

1. You buy two packs of emoji stickers at the store. If a one pack is \$1.00, how much will you pay at checkout?

2. You go to the store to buy an ice cream cone for you and your friend. The menu says each cone is \$2.00 dollars. How much will you need to pay the cashier?

3. You buy 12 new pencils to bring to school. If each pencil is \$.25, how much will you pay in total? (Remember, four quarters = \$1.00!)

4. **CHALLENGE!!!** You want to buy a brand new game. The price on the box is \$10.00. How much will you pay at checkout?
